Projects

Offliner [🔗](#)

[Laassari/Offliner](#) [🔗](#)

- Developed a PWA where the user can download and manage Youtube videos through the app. The user can, also, create and manage playlists. The app supports background fetch and is registred as a share target.
- Tools Used: Typescript, React, Tailwindcss, Docker, Express

Focus

[Laassari/focus](#) 

- Developed a chrome extension to help focus on work in intervals using the Pomodoro technique. You can customise the focus time, rest time and extended rest time. in addition to the websites you wish to block during Focus
- Tools Used: Javascript, chrome.extension API

Education

University of Ibn Zohr, Physics

Sept 2013 – June 2016
